Inside this issue:

People say that it is difficult to find the job in today's market. Due to population growth, a large number of candidates are competing for few opportunities.

While it is true that competition has increased in recent times, however employers are on constant look out for candidates with strong skill set and positive attitude.

Many candidates feel that once they do graduation, they are eligible to get the job. Employers are not looking for the degree certificates, they are looking for the skill sets, domain knowledge which can be utilized in their business to make money.

If you have the skill set, know how and confidence in helping any business success you will have good chance of securing a job.

Many candidates, wait till their graduation and then realize that they need to upgrade their skills to make it suitable for job or business. This is sheer delaying the start of career.

As a student, we urge you to focus on your career early on. You have ample amount of time and it should be utilized to network with seniors and studying about industries and learning about new trends.

When you speak to your seniors, you will easily be able to find what is the demanding skill set in the market.

For example, you can find out that in current market, Digital Marketing, Full Stack Web Developer and Android App development is hot trend. This is the time of specialisation. You need to select one field/area and then accomplish very deep skills in the same.

You can quickly learn about a specific area through assisted coaching. This is where you gain **Knowledge**.

When you apply this knowledge through practical examples, assignments etc, you get **Skills.**

When you work on live projects and solve complex problems and do this multiple times, you get **Experience.**

Once you demonstrate experience, a job is all yours !!!

Our Purpose

Purpose of Yasham Academy is nation building through youth empowerment & equipping them with the latest technology skills.

Our **Mission** is to provide the high quality training in the latest technology to motivate, equip and empower the youth workforce.

I feel very energetic and purpose driven. I am also blessed to have an excellent team who are integral part of the shared purpose.

Together we are making great progress and making subtle changes in the life of youth through practical education.

Full Stack Web Developer

A full stack developer is an engineer who can handle all the work of databases, servers, systems engineering, and clients.

Full stack refers to the collection of a series of technologies needed to complete a project

Works with both front-end and back-end technologies.

Full Stack Web Developer work with-

- HTML
- CSS
- JavaScript
- PHP/Python/.Net/Ruby
- Databases
- Bootstrap
- jQuery

Full Stack web developer is very much in demand and high number of jobs are available.

Major IT companies like TCS, Wipro, SAP, Deloitte and HCL hire full stack developers who are a jack of all trades.

All businesses are adapting technologies which is increasingly become web based. Hence the demand for full stack web developers is steadily increased.

Roadmap to become Full Stack Web Developer :

Full stack web developer is an exciting field of creation. You will be creating the web based solutions for business. Web based business solutions are very much required in today's business.

For example you may be creating the ecommerce Website offering the products for online purchase. Another project can be Hospital Management System. A library management system may be required for a school. Newspaper subscription solution, an online Newspaper or Magazine.

You need to gain knowledge of full stack web developer by learning various technologies. You can learn all the techniques on your own—however it takes lot of time owing to trial and error. You can join any of the institute, which will take structured approach of teaching you the concepts. **This is knowledge.**

Most important aspect is to apply this knowledge to solve some assignments, problems etc. This will give you **Skills**.

In the end, you need to create a full end to end project, most likely a real life project. This will give you **experience.**

We provide Full Stack Web Developer Career track to prepare you for industry. Join any of our free seminar to know more or discuss with our staff.
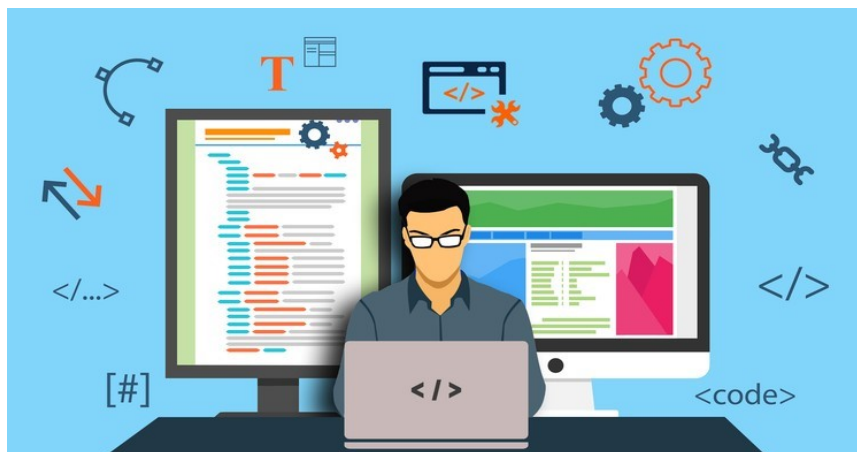

Free Seminars conducted from Apr-Jun 2019

We take pride in increasing the awareness about technology amongst students through our completely free seminars.

We conducted lots of seminars during April-Jun 2019.

Highlight of this quarter was the webinar on Devops Practices. This webinar was conducted by industry vetern and highly experienced practitioner Dr. Mahesh Kuruba.

Engineers and other students found this very useful. They understood the latest trend in the industry. It gave them holistic knowledge.

Yasham Academy Updates

We have received very good response in Q2-2019. We are very happy to see that students are much more aware and focussed to learn the skills for their career.

In this quarter, we saw **16+** students have successfully completed their courses. We wish them all the best for their future.

With great pleasure, we would like to inform you that 4 students from the Academy got selected for the job.

Mr. Tausif Shaikh joined us for the Hardware and Networking course. He was working full time and wanted to change the career. He took initiatives and learned the concept easily. He received further career guidance from our faculty. We supported him from resume preparation, job application and appearing for interview. He got a job at a network

Mr. Namdeo Masake also enrolled in the same course and went through the similar experience of placed into a job at Reliance Life ltd.

Mr. Rohit Parekh, successfully completed full stack web developer course and joined a local web development firm.

Ms. Ravina Kshirsagar, our own BCA student has successfully completed the course. She has joined the academy as Student Counsellor.

We feel accomplished, when we see our students are becoming successful. These are just the baby steps in our mission. We will work even harder to see many such success.

Yasham Academy is committed to the empowerment of the youth by providing the motivation, equipping them with
